

Industrial and special machine construction

Together for the best solution!

For more than 30 years, ACM have been offering customised complete solutions in various industrial sectors. We accompany our customers with expertise, know-how and new perspectives throughout the full course of the project.

To strengthen our team, we are looking to recruit an

INDUSTRIAL PAINTER

(m/f/d)

Essential duties and key responsibilities:

- You prepare the metal and sheet metal parts to be painted (degreasing, priming, grinding, masking).
- You prepare the required paint mixtures according to the customer's wishes
- You are proficient in painting with a spray gun or airless sprayer
- You take care of the maintenance and servicing of your work equipment
- You manage your stock independently

Required experience and skills:

- You have several years of experience as an industrial painter
- You work carefully and independently
- Absolute cleanliness and flawless painting are important to you
- You have a convincing, quality-conscious approach
- You are a motivated teamplayer and observe the applicable safety regulations

We offer:

- A salary according to your expertise, flexible working hours
- You will work in a modern environment with further training opportunities
- A secure job in a dynamic team, an excellent working atmosphere and a lean hierarchy structure.

Apply now. We look forward to receiving your complete application documents. Please state your salary expectations and the expected start date.
